KE AQUA FARMS – WEBSITE PROJECT

REQUIREMENT CLARIFICATION

Thank you for sharing the detailed website brief. I have reviewed the requirements and have a clear understanding of the brand direction, content structure and overall vision. Before beginning the UI/UX and development planning, I would like to clarify the following points so there are no assumptions during development.

1. PRIMARY OBJECTIVE & CTA

- What is the #1 primary objective of the website?
- Which action should visitors be encouraged to take most? (e.g. Join Training, Contact the Team, Book a Farm Visit, Request Lab Support, Farm Support, Business Enquiry, or Other)

2. TARGET AUDIENCE PRIORITY

- Please rank your target audiences in order of priority (1 = Primary, 2 = Secondary, etc.).
- Farmers
- Aspiring Aquaculture Entrepreneurs
- Students / Graduates
- Aquaculture Professionals
- Investors
- Others

3. WEBSITE PAGES

- Should all the sections mentioned in the brief be separate pages, or would you prefer some sections to be combined into larger pages?

4. TRAINING PROGRAMS

- Should users apply through a website form?
- Is online payment required for trainings?
- Should users be able to select a training program and date?
- Do you need seat / availability management?
- Should confirmation be sent via Email or WhatsApp?
- Should training fees be displayed on the website once finalized?

5. LABORATORY SERVICES (AQUA PULSE)

- Can users request or book laboratory services online?
- Should test prices be displayed?
- Will users need to upload sample information?
- Will laboratory reports be generated and downloadable from the website?
- Do you require customer login, or should it be enquiry-based only?

6. KNOWLEDGE HUB / CMS

- Who will add and manage articles and videos after launch?
- Do you need an Admin / CMS panel for the Knowledge Hub?
- Should admins be able to create, edit, delete and publish articles / videos?
- Should articles include categories, tags and SEO fields such as title, meta description and slug?

7. CONTACT & LEAD MANAGEMENT

- Where should enquiries submitted through the contact form be received? (Email / WhatsApp / Google Sheets / CRM / Admin Dashboard)
- Should the visitor receive an automatic confirmation after submitting the form?
- Do you want leads to be stored in a database or any specific system?

8. WHATSAPP INTEGRATION

- Please provide the official WhatsApp Business number.
- Which actions / buttons on the website should open WhatsApp chat?

9. SOCIAL MEDIA

- Please provide official links for the following platforms:
- Instagram
- Facebook
- YouTube
- LinkedIn
- Other platforms, if any

10. LOCATIONS

- Please provide the following address details:
- Office address
- Farm location(s)
- Laboratory location
- Training location
- Google Maps links / pins, if available

11. LANGUAGE

- In which language(s) should the website be developed?
- English only / English + Telugu / English + Telugu + Hindi / Other

12. LEGAL

- Please provide or confirm the following pages / documents:
- Privacy Policy
- Terms & Conditions
- Disclaimer
- Training Cancellation / Refund Policy
- Laboratory Disclaimer
- Any other required business or legal disclosures

13. SERVICES OFFERED

- The brief highlights many capabilities. Please confirm which of the following services you currently offer or plan to offer as commercial services. Some capabilities may instead be part of KE Aqua Farms' own farming practices, demonstrations or educational content.

1. Aquaculture Farm Consultancy / Farm Support

2. Farm Monitoring & Technical Support
3. Water Quality Testing
4. Microscopic / Shrimp Health Analysis
5. Microbiology / Vibrio Testing
6. Periodic Farm Monitoring
7. Seed Selection & Screening Support
8. Farm Technology Consulting
9. Auto Feeder Solutions
10. Aeration Management
11. IoT / Sensor-Based Monitoring
12. Micro/Nano Bubble Technology
13. Practical Aquaculture Training
14. Farm Visits / Exposure Programs
15. Aquaculture Entrepreneurship Guidance
16. Aquaculture Inputs / Products through Kamatham Enterprises
17. Any other services currently offered

• For each confirmed service, please provide:
• Service name
• Short description
• Who can use it
• What exactly is included
• Location / service area
• Pricing, if applicable
• How customers can request / book the service
• Whether it is currently available or planned for the future

Once we receive the above information, we can finalize the sitemap, user flows, feature scope, technology architecture and development estimate.

Thank you for your time and support.
